

# Resources for Learners and Students Getting Started with Cerego

## The Basics:

How to set up your account and profile, and get started learning with the Cerego adaptive learning platform.

*Information on how to make the most of Cerego to improve your study and retain course material for longer. Don't see what you need? You can always visit Cerego support: [support.cerego.com](https://support.cerego.com).*

# Question: How do I sign into Cerego?

Hint: Make sure you speak with your instructor.

**Answer:** Is your instructor using a Learning Management System, like Canvas or Blackboard? If yes, then all you need to do is log into your existing LMS, and you'll be able to access Cerego through there via assignments your instructor gives you.

**Answer:** If your school or instructor is not using an LMS, make sure you get the special URL from your teacher to access Cerego. Or look for an email from our notifications address.

**Note:** Do not sign up for the Cerego Free Trial—this will result in the creation of an additional account not associated with your instructor's course, and you will be denied access to the course.

# Question: Does Cerego have mobile apps for iOS and Android?

Short answer: Yes!

**Answer:** Yes, and, data shows that [people learn 2x more when they use our mobile apps.](#)

“The results are that people using Cerego's mobile apps interact more with the platform—that is, they practice or study roughly 2x as much as desktop-only users. And those additional interactions pay off. In fact, the additional interactions with the material means that mobile users learn more than 2x as much as those using only the desktop platform. That means that not only are mobile learners studying more, but also that every minute spent learning in the mobile apps is actually more effective than on desktop computers.”

You can download our apps for iOS and Android via the links below:

- [iOS apps \(iPhone and iPad\)](#)
- [Android](#)

# Question: I already have an account with another LMS—do I need to have a Cerego account, too?

Short answer: No.

**Answer:** No. If your instructor is using a Learning Management System, then you can log into that account, and access Cerego through your existing account.

This still applies if you download the free Cerego app for iOS and/or Android. Use the same email you use for your LMS or you used to log into Cerego. **Use the MAGIC LINK for easy, password-free access!**

# Question: How does Cerego work?

Short answer: It's complicated, but we make it easy!

**Answer:** Cerego is based on the two most important principles of learning science:

a) it is better to [space your learning out over time](#) and in [shorter sessions](#), rather than a lot of learning in one session.

b) it is better to quiz yourself (the '[testing effect](#)') rather than just re-reading.

[You can download a PDF that covers the basics here.](#)

**Note:** You will not be able to complete your Cerego assignments in one session. You will have to take a few days to build strong memory retention!
