[Resources](#) > [Using Cerego](#) > LMS Integrations

Bringing adaptive learning to the LMS

Students using Cerego show a 12pt+ improvement in their overall grade, and a 16pt+ improvement on analytic questions.

94% of students recommend their professors continue to use Cerego

Cerego consistently has the highest levels of student engagement and retention for an adaptive learning platform:

- 98% of students say Cerego courses are directly relevant to what they need to study.
- The more students use Cerego, the higher their final grade.
- Mobile apps with offline mode and 5 minute study sessions lets students learn the way that fits their lifestyle.

How it works

A simple LMS integration

Our LTI integration just takes a few minutes to connect and lets everyone have a single login for both their Learning Management System (LMS) and Cerego.

Here's how to get everything connected and running seamlessly:

- [Connecting Cerego to Canvas](#)
- [Connecting Cerego to Blackboard via LTI](#)
- [Connecting Cerego to Moodle via LTI](#)
- [Connecting Cerego to D2L/Brightspace](#)

Why teachers love Cerego in their LMS

- [Smart Create™](#) technology and [Natural Language Processing](#) automate the process of taking existing content in an LMS to create multiple choice questions, diagrams, sequences, and surveys.
- Gradebook integration gives insight into each student's performance in Cerego and the grade they receive.
- Asynchronous content and automated study reminders reinforces better study habits through distributed learning.

Why students love Cerego in their LMS

- Built using proven Learning Science and AI, Cerego is the only fully automated adaptive learning platform. No pre-assessments or feedback required. Students just learn.

- Students become, well, better students. Cerego not only improves their grades, but also improves each student's ability to study more effectively in the future.
-

Integrated analytics

- Data can be automatically sent from Cerego to the LMS gradebook.
- Cerego provides insights into learner proficiency, which can connect to institutionally defined outcomes.

"Cerego is easily accessible to students, especially if they have the app on their phone. My students love the program because it makes studying easy and fun."

—Patti Valella, Professor, Long Beach City College
